Marc Luc **Cabal**

FULL STACK DEVELOPER · WEB DEVELOPER

(1) 805-329-1190 | marccabal77@gmail.com | marc-cabal.netlify.app | MCabal77 | marc-cabal

"If you can't fly then run, if you can't run then walk, if you can't walk then crawl, but whatever you do you have to keep moving forward."

Summary

Full Stack Developer with experience in various languages and frameworks: including HTML, CSS, JavaScript, React. Adept in a wide range of web applications including: web, mobile, and desktop. Developing web services by combining data and front-end to bring a wonderful user experience as a full stack developer.

Projects

Musium   *Personal*
PERSONAL PROJECT   *August 2022 - Present*

- Solo created a music player application that uses an API and modern technologies such as: React, Redux, and Axios.
- Used Axios to create endpoints to load the website with information based on artist, song, and current top charts.
- Used Redux as middleware when connecting the API endpoints with the front-end.

Portfolio Site   *Personal*
PERSONAL PORTFOLIO   *January 2022 - Present*

- Showcases my personal projects through a front-end focus.
- Website designed with a focus on simplicity and user friendliness that uses technologies like React.

Education

UCI Division of Continuing Education   *Irvine, California*
FULL STACK WEB DEVELOPER CERTIFICATE   *January 2022 - June 2022*

- Worked with tools used in a modern stack, such as: MongoDB, Express, React, and Node.
- Learned to translate legacy code like jQuery into more modern frameworks and syntax.
- Exposed to the agile methodology which was implemented in group software projects.
- Introduced to chrome dev tools and IDE debugger to allow for bug fixing.

Moorpark Community College   *Moorpark, California*
ASSOCIATES IN COMPUTER SCIENCE   *August 2018 - May 2021*

- Received a letter of recognition from the department of computer science by voluntarily assisting more than 100 students across 5 computer science classes.

Skills

Front-end	React, Vite, Tailwind, Next.js, HTML5, CSS
Back-end	Node.js, Express.js, Nest.js, PostgreSQL, RESTful APIs
Programming	JavaScript, TypeScript, Java, SQL, C++
Soft Skills	Communication, Self awareness, Open-mindness

Extracurricular Activities

Moorpark Engineering Club   *Moorpark, California*
CORE MEMBER & ASSITANT TO OFFICIAL BOARD MEMBERS   *December 2019 - May 2021*

- Optimized work flow within the board members by around 50% through taking on responsibilities among 3 or more board members at a time.
- Diffused stress among the board members, which led to a 33% increase in new club members by automating more than 10 mundane tasks.

Hack the 6ix   *Toronto, Canada*
PARTICIPANT   *August 2018*

- A programming competition where participants work together in groups to bring an idea to real life in the span of 36 hours.
- Worked with a group of two other people to create an engineered product for home security.
- Created my own network of API calls that communicated with the wireless device we created with arduinos.
